

Lifetime LED 50 in. Light Mount

Installation Guide for Jeep Wrangler '07-'16 2-Door JK

Installation Time: <1 Hour

Tools Required:

- ✓ Box Cutter/Knife
- ✓ 40 Torx Bit

Installation Instructions:

1. Carefully open the package using a box cutter or knife (Figure A) and ensure both light bar brackets are included and undamaged.

Figure A

2. On the driver's side, use a 40 torx bit to remove the two bolts beneath the windshield (do not discard) (Figure B).

Figure B

3. On the driver's side, use a 40 torx bit to remove all four bolts along the A-pillar (do not discard) (Figure C).

Figure C

4. On the driver's side, place the correct mounting bracket (side-specific) along the A-pillar so that the top of the bracket is slanted inward toward the center of the vehicle (Figure D).

Figure D

5. On the driver's side, mount the bracket by returning all four bolts along the A-pillar using a 40 torx bit (Figure E).

Figure E

6. On the driver's side, mount the bracket by returning the two bolts beneath the windshield (Figure F).

Figure F

7. On the passenger's side, follow steps 2-6, ensuring that the top of the bracket on the passenger side is also slanted inward toward the center of the vehicle.
