

KC HiLiTES C-Series Lights – Pair

Installation Guide for Jeep Wrangler '07-'18 4-Door JKU

Installation Time: <1 Hour

Tools Required:

- ✓ Box Cutter/Knife (Packaging)
- ✓ 10mm Socket
- ✓ 13mm Socket
- ✓ Socket Wrench
- ✓ Allen Wrench

Installation Instructions:

1. Locate and remove the wiring harness from the rest of the packaging (Figure A).

Figure A

2. Locate the yellow (positive) wire and attach it to the positive (+) battery terminal using a 10mm socket wrench (Figure B).

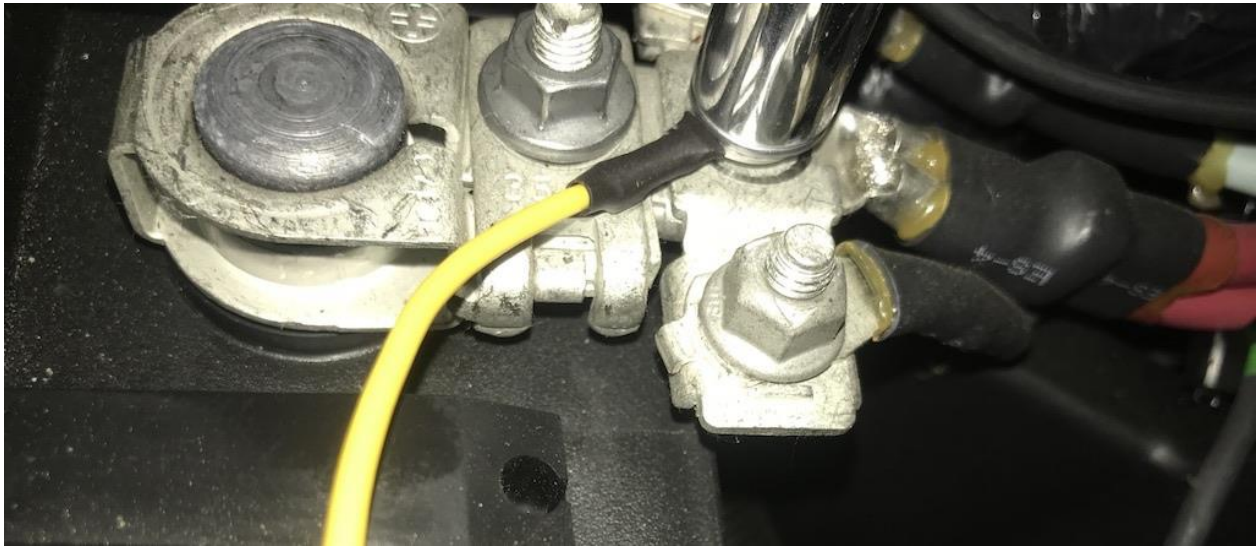

Figure B

3. Locate the black (negative) wire and attach it to the negative (-) battery terminal using a 10mm socket wrench (Figure C).

Figure C

4. Run the wiring harness through the engine bay and into the cab of the vehicle and connect the yellow wire to the bottom switch terminal (Figure D).

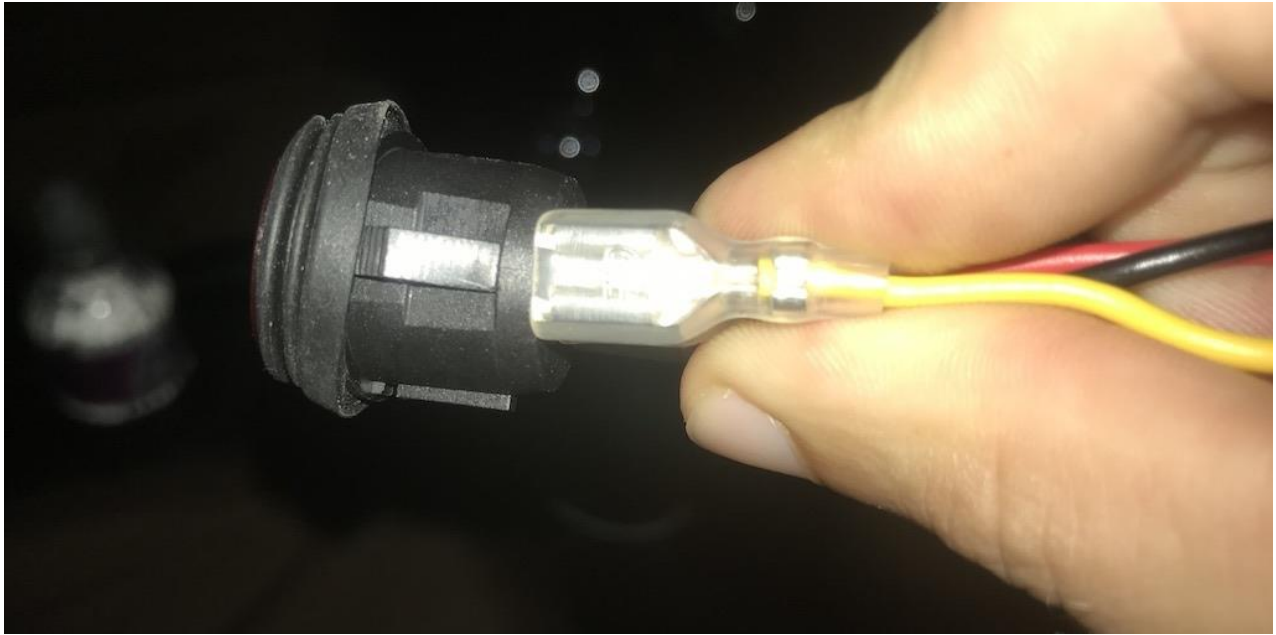

Figure D

5. Connect the red wire to the middle switch terminal (Figure E).

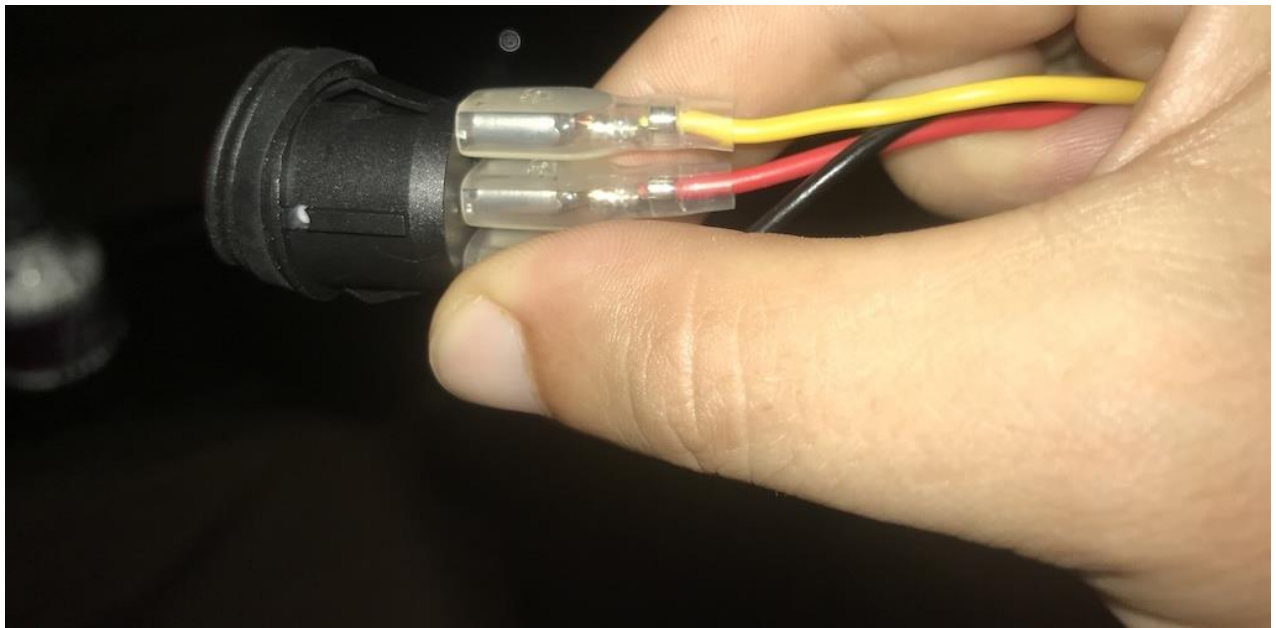

Figure E

6. Connect the black wire to the top switch terminal (Figure F).

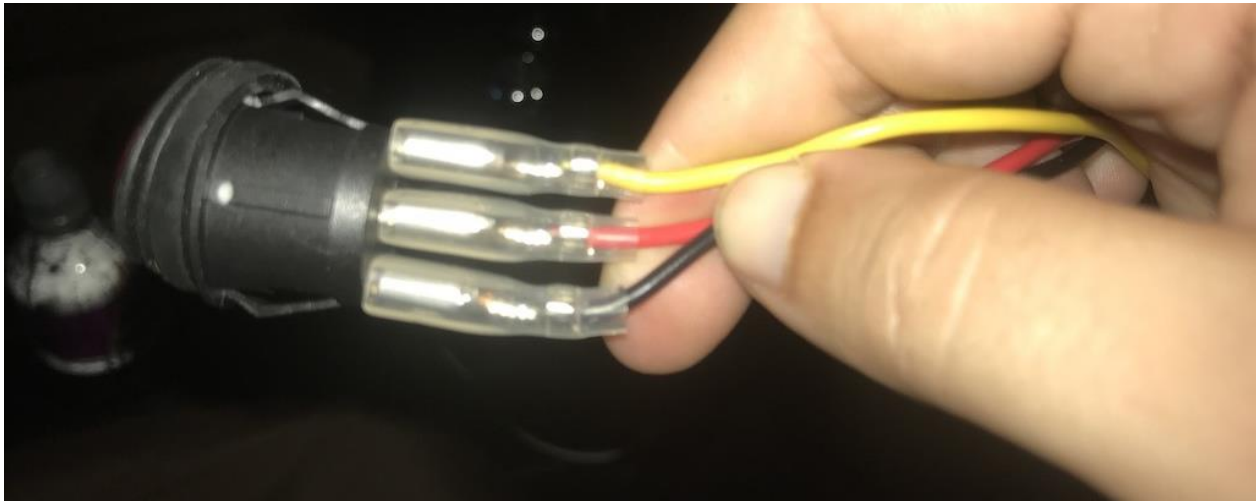

Figure F

7. Ground the black wire from the switch to the vehicle chassis.
8. Run the wiring harness connection to the LED mounting location (Figure G).

Figure G

9. Mount the LED and connect the light to the wiring harness (Figure H).

Figure H

10. Repeat Steps 8 and 9 for the other LED.
