

Putco Element Tinted Window Visors - Front & Rear
Installation Guide for Jeep Wrangler '07-'18 4-Door JKU

Installation Time: <1 Hour

Tools Required:

Installation Instructions:

1. Beginning with the front passenger window, roll down the window then locate the front passenger window visor and remove the 3M backing (Figure A).

Figure A

2. Slide the rear portion into the slit at the top corner of the window (Figure B).

Figure B

3. Press the center of the visor into place by pulling it out, bowing slightly (Figure C).

Figure C

4. With the window visor still bowed, press the front into place (Figure D).

Figure D

5. With the top sections in place, bend the window visor inward to push the bottom of the window visor into place (Figure E).

Figure E

6. Lower the rear passenger window and remove the backing from the rear passenger window visor (Figure F).

Figure F

7. Slide the rear part of the window visor into the top rear corner of the rear passenger window slit (Figure G).

Figure G

8. Using the same technique as the front passenger window visor, bow the window visor somewhat and press into place (Figure H).

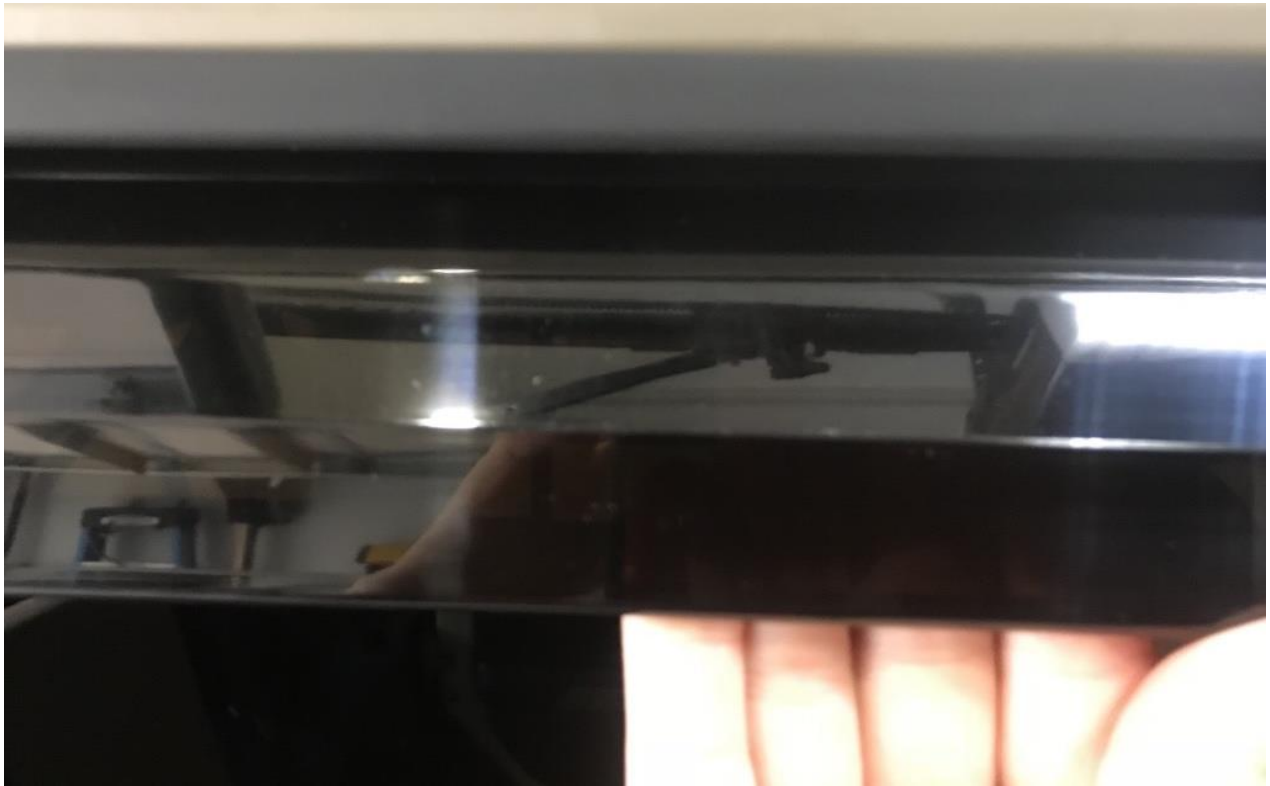

Figure H

9. With the window visor still bowed, press the front section into place (Figure I).

Figure I

10. Repeat Steps 1-9 on the driver's side.
