

RedRock 4x4 Matte Black Headlight Bezels (97-06 Wrangler TJ)

Installation Time: 30 Minutes

Tools Required:

- ✓ T15 star bit

The RedRock 4x4 Matte Black Headlight Bezels are plastic/ABS, but the factory bezels are also plastic/ABS.

Installation Instructions:

1. Before, I had painted the factory bezels but the paint did not stick well.

2. Remove the 3 – T15 star screws

3. Pull the factory bezel out after removing the screws

4. Using the factory bezel to determine which RedRock 4x4 Matte Black Headlight Bezel needs to be installed on the driver or passenger side. Insert the correct bezel into the Jeep grill.

5. Reinstall the 3 – T15 start screws. The backing for the screws is plastic so only snug the screws not to strip the mounting tab.

6. Installation complete
