### Installation Instructions

G.E.A.R. Tailgate Cover  
TJ (Part # 56622xx)  
07-11 JK (Part # 56623xx)

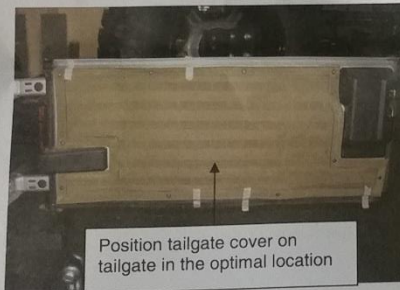

**NOTE:** Please read instructions entirely before installing this part.

Parts Included	Qty	Parts Included	Qty
G.E.A.R. Tailgate Cover	1	Self-tapping Screw	10

**Step 1:** Position tailgate cover on tailgate in the optimal location. Pull tight and either tape on, or with assistance have someone hold it, then use a scribe to mark holes. (Fig A, B)  
**Note:** On 2011 vehicles you will first need to remove the tailgate support bracket from the tailgate using a #30 torx bit. (Fig E)

**Step 2:** Once all holes are marked set cover to the side and drill the marked holes using a 7/64" drill bit. (Before drilling make sure there are no obstructions) Fig C

**Step 3:** Now install the included screws. (Make sure not to over-tighten) (Fig D)

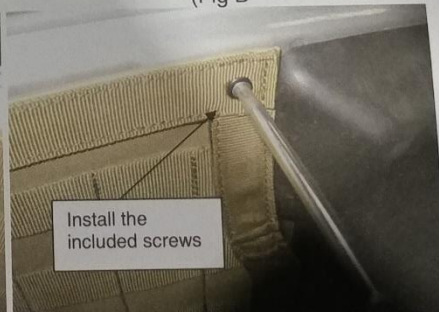

(Fig A)

(Fig B)

(Fig C)

3. Using the shape of the Tailgate cover I lined up the right-side edge then used the provided self-tapping screws, Philips bit and drill to locate the top right-hand corner

4. Stretching the top section while using the top line of the tailgate I located the top left screw

5. Still using the top edge to level, the tailgate cover I located the remaining top 2 screws. Then stretched the cover tight to locate the bottom row from the middle out

6. Using a scribe, I located the lower right corner. After marking the location, I used a 7/64 drill bit to locate the hole. Due to the location falling on a crease.

7. All screws installed

8. Un-snap the straps from the bag and weave through the molly loops

9. Installation complete
