

2007-2014 Wrangler Turn Signal Guards

Contents:

- (2) - turn signal guards
- (1) - alcohol pad

Tools Needed:

N/A

It is recommended that you have an additional person available to help during this installation, parts can be awkward to hold and support by yourself. Block wheels and set parking brake before beginning work. Disconnect the negative (-) battery cable.

clean the turn signal guards with the supplied alcohol pad.

Lay the guard face down on a soft surface and remove the red 3M backing from the 3M tape.

Lay the guard on top of the light and press around the edges to seat the 3M tape.
