

## DV8 Off-Road Ranger Hard Top 2 pc.

07-17 Wrangler JK 4 Door

SKU# J103158

**Installation Time:** 45-60 Minutes

### **Tools Required:**

- ✓ Pliers
- ✓ Socket Wrench with 11 and 13mm Sockets
- ✓ Screwdriver with T20 Torx head
- ✓ Screwdriver with Phillips Head – for packaging disassembly

*Remove existing top and previous installation brackets (if necessary)*

### **Installation Instructions:**

1. Un-package top and check for damages:

2. Lay top flat and remove the six (6) bolts securing it to delivery pallet using an 11mm Socket and pliers:

3. Remove original clamp holders from above windshield and replace with new ones (one per side)– use Torx head:

4. Place main top section onto Jeep and bolt down with six (6) 13mm bolts ( 3 per side) with washers and nuts (supplied):

5. Bolt down main top section to frame above front doors of Jeep – One 13mm bolt per side:

6. Place front section onto Jeep and secure with four interior clamps. Take care not to over-tighten:

7. Place the drip protectors on inside corner of each rear door frame:

8. Make sure to test areas around seals after exposure to weather to ensure seals are watertight.
