

Installation Instructions

DESCRIPTION: WINDSHIELD LIGHT MOUNTING BRACKET JEEP WRANGLER 07-12

Installation steps:

Step1: Remove two of the factory bolts on the driver side windshield frame bracket. (Fig A)

Step2: Remove the same bolts on the passenger side.

Step 3: Install each side bracket using the previously removed two factory bolts. Do not fully secure at this time. Use caution when doing this in order to protect the finish of your vehicle, and then loaded into the original lamp bracket screw holes at the car.

Step 4: Check whether the drain on the bolts, whether all the bolts tightened.

Step 5: Install easy to complete.
