

NEVER DRINK AND DRIVE!

Alcohol affects a person's ability to operate a vehicle. Even one alcoholic drink can put you over the legal limit to drive and puts your safety or the safety of others at risk. Initiative does not advocate the abuse of alcoholic beverages or drinking alcohol while driving a vehicle. It is not the intent of Initiative to promote misuse of alcohol, alcoholism, hazing, binge drinking or any other form of alcohol abuse.

Initiative is NOT responsible for ANY legal ramifications if you choose to drink alcohol while driving a vehicle.

1. Locate the driver side mounting bracket bolts on the windshield just in front of the rearview mirrors. Remove both factory bolts using a Torx T40 tool.

2. Place the J-Key Bottle Opener over the exposed holes and reinstall the factory bolts.
