

LED TAIL LIGHTS

(2007-2018 WRANGLER JK)

INSTALLATION INSTRUCTIONS

CONTENTS

(1) RH Tail Light
(1) LH Tail Light

TOOLS REQUIRED

Phillips Head Screwdriver

STEP 1

Begin by removing the negative battery terminal. Then, remove the (2) Phillips head screws from the factory tail light.

STEP 2

Disconnect the tail light harness, then remove the light from the vehicle.

STEP 3

Connect the Raxiom tail light harness to the factory plug. The harness fits tightly, so make sure it's fully clipped in before moving to the next step.

STEP 4

Before fully installing the light, check that the brake lights, turn signals, and hazards all work properly. Once the function of the lights has been checked, install the light using the (2) factory screws removed in Step 1.
