

Tail Light Guards 07-18 JK Wrangler

Contents:

- (2) Tail Light Guards
- (4) Large Philips Head Screws
- (4) Small Philips Head Screws
- (8) Spacers

Tools Required:

- Philips Head Screwdriver

//Step 1:

Remove the 4 Philips head screws from each tail light [A].

//Step 2:

Using provided screws and spacers, install the guard with a spacer in between the tail light lens and the guard [B], and install screw to secure in place.

Note**: The larger screws go on the outside edge on both sides.

//Step 3:

Install all 4 screws per side, ensure screws are tight [C]. Installation is now complete.
