

OLD GLORY TAIL LIGHT COVERS

(2018+ WRANGLER JL LED Lights Only)

INSTALLATION INSTRUCTIONS

CONTENTS

(2) Tail Light Covers

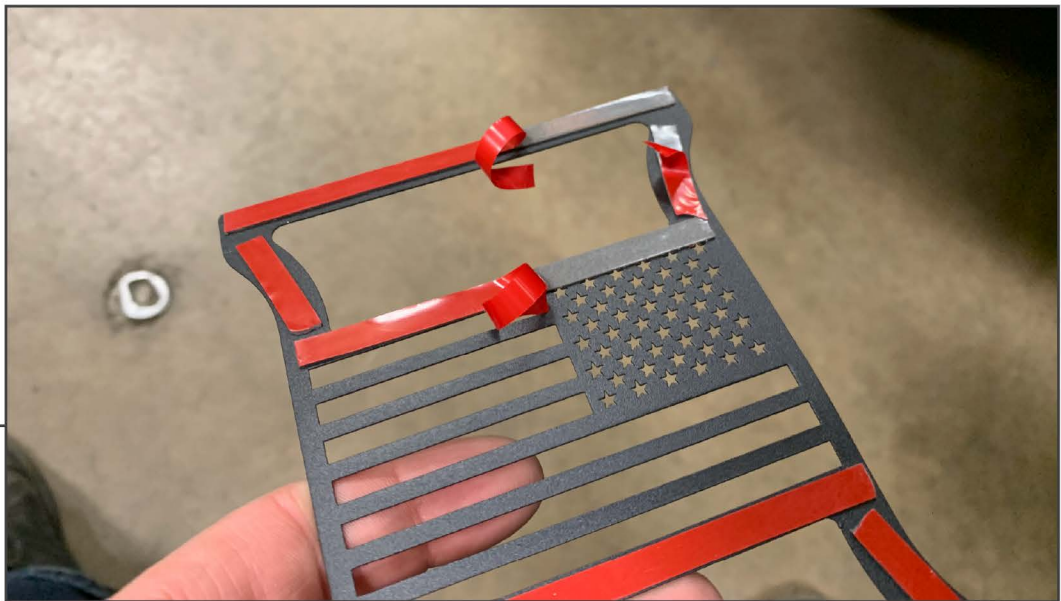

TOOLS REQUIRED

Isopropyl Alcohol

SKU # J133787-JL

STEP 1

Begin by thoroughly cleaning the tail lights. Use rubbing alcohol to remove any remaining wax and grease. Allow the light plenty of time to dry. The double sided tape will not stick if the lights are wet.

STEP 2

Test fit the covers prior to removing the tape backing. Once you familiar with how the covers will fit, carefully remove the red tape backing from the double sided tape.

STEP 3

Center the covers on the lights. Apply firm even pressure to the taped surfaces to ensure proper adhesion. Installation is now complete.
