

# 2011-13 JEEP JK SHIFT KNOB (AUTOMATIC) INSTALLATION INSTRUCTIONS

**PART NO: JP-181113-BL & JP-181113-BK**

Thank you for purchasing a quality Drake Off Road product. Please refer to the installation instructions below when installing this product.

SHOWN: JP-181113-BL

## TOOLS REQUIRED:

- Flat Blade Screwdriver
- 2.5mm Allen Wrench

## INSTALLATION:

- Step 1:** Using a flat blade screwdriver, carefully pry down the lower chrome collar at the seam to release the retainer clips.
- Step 2:** Pull up on the shift knob and remove the chrome collar.
- Step 3:** Remove Drake's exclusive polyurethane, tire-tread grip from Drake Off Road shift knob.
- Step 4:** Install the Drake Off Road shift knob, and align the allen set screws with the flat surface of the shifter.
- Step 5:** Tighten the allen set screws evenly to secure the shift knob.
- Step 6:** Install the Tire Tread.

### Differential Cover – Dana 44 Axle

Rugged, tough, and ready to take on the most extreme off-road adventures imaginable! Add character to your Dana 44 axle with this aggressive patent pending tread design Differential Cover by Drake Off Road. Increase the structural rigidity of the whole axle.

Increased oil capacity decreases the operating temperature of the gear oil. Engineered from high tensile nodular cast iron with a thick 1/2" mounting flange and a 1/4" housing, this differential cover is ready to protect your gears and locker from the most punishing rocks and trail hazards! Incorporated recesses protect the allen bolt heads from trail damage. This is the perfect accessory for your Jeep JK or TJ, and it also fits all solid Dana 44 axles. These differential covers have a powder coated grey finish, class 12.9 hardware (18% stronger than grade 8 hardware), and complete step-by-step instructions for easy installation.
